

Utility Assets; Risk vs Demand

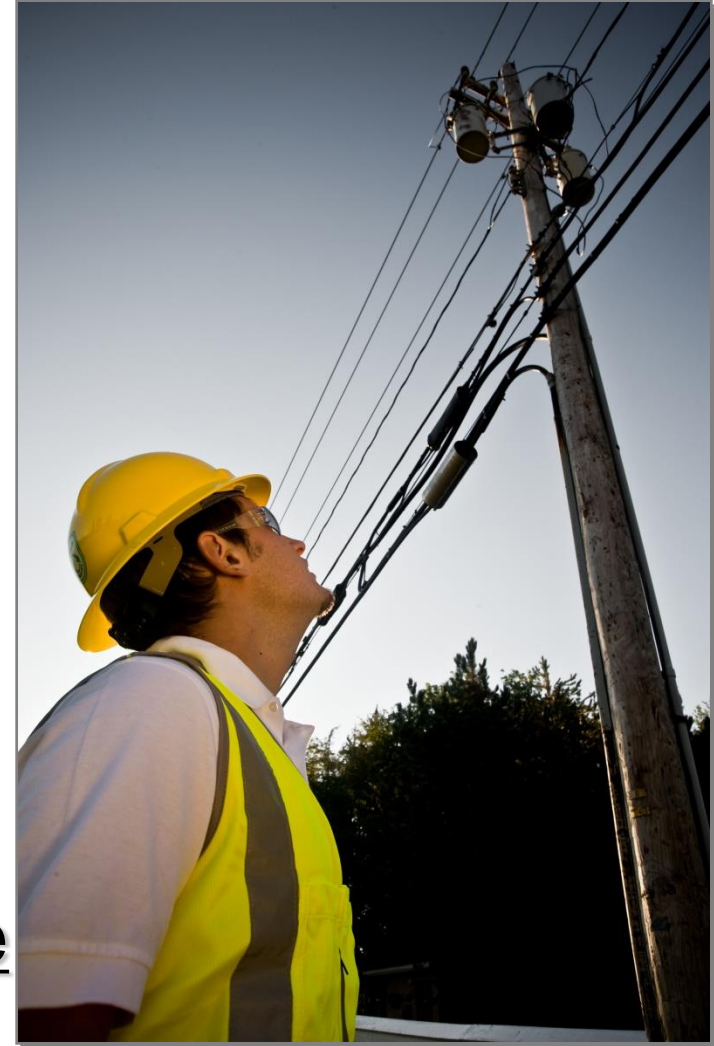

Scott Carlin

**Vice President- Asset Management Services
Davey Resource Group**

Inspection and Process

- Annual Inspections
 - Multiple and Diverse (Utility)
 - Multiple Party
 - Ownership of Notification
- Multi-Cycle
 - High Risk Reduction
 - Targeted Prioritization
- Expanded Participation
 - Multi-Year Plans
 - Processes to Manage

Inspections are not the Challenge

Challenge and Demand

- Consistency
 - Severity Types
 - Loading Assumptions
 - Environmental Variables
- Notification Process
 - Communication Channels
 - Manual (E-mail)
 - JPA
- Demand
 - Density Dependent
 - Scarcity of Access
 - Attachments and Size

Solutions and Risk Mitigation

- Consistency
 - Severity Types
 - Pole Loading Assumptions
 - Notifications
- Improved Communication Tools
- Collaborative Contractors
- Streamlined Process

Thank you
